

35 U.S.C. 121:

The inventions stated are:

I - Claims 1-20 and 30-49, drawn to a method, classified in class 438, subclass 108, and

II - Claims 21-29 and 50-58, drawn to a device, classified in class 257, subclass 778.

The subject Restriction Requirement is believed to have been sent in error. The Group I claims 1-20 and 30-49 have already been cancelled upon filing of this Divisional patent application, as shown in the attached copy of the filing papers.

Applicant was further required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable, and that currently no claim is generic.

The species stated are:

- A) Figure 4E, which reads on Claims 21-29, and
- B) Figure 10D, which reads on Claims 50-58.

Applicant provisionally elects to be examined the species described by the Examiner as Group A) Fig. 4E , which reads on Claims 21-29. This election is made with traverse of the requirement under 37 C.F.R. 1.143 for the reasons given in the following paragraphs.

The Examiner is respectfully requested to reconsider the Requirement for Election of Species given in the Office Action, because of the increased costs applicant would be forced to bear if the two species are separately examined. Furthermore, the field of search must necessarily cover both species, in addition to other related Classes and subclasses, to provide a complete and adequate search.

Withdrawal of the Election of Species Requirement, and allowance of the present Patent Application, is therefore respectfully requested.

Withdrawal of the Restriction Requirement, and allowance of the present Patent Application, is respectfully requested.

It is requested that should there be any problems with this response, please call the undersigned Attorney at (845) 452-5863.

Respectfully submitted,

Stephen B. Ackerman, Reg. No. 37,761
